

Access to Nutrition Index (ATNI)

ACCESS TO NUTRITION INDEX

Door:	The Access to Nutrition Initiative (ATNI) is hosted by the Access to Nutrition Foundation, an independent not-for-profit organization based in the Netherlands that works internationally. ATNI draws on the power of the private sector to address the global nutrition crisis. Every action we take is intended to encourage businesses to do more to achieve good health through improved diets and nutrition.
Sinds:	2013
Gebied:	Social
Verplichting:	Nee, vrijwillig .
Gebaseerd op:	ATNI was designed through an extensive, multi-stakeholder consultative process. This was done to ensure that the Index would be a useful tool for different stakeholder groups and that it would reflect the latest thinking and practices related to the private sector's role in nutrition. In addition, the ATNI team reviewed a range of other indexes, rankings, and rating systems, such as the Access to Medicine Index, to understand best practices and build on lessons learned.
Informatie: (1/2)	<p>The full Access to Nutrition Initiative Prospectus can be found here.</p> <p>ATNI's aim is to drive change by tracking and driving the food industry's attempts to tackle undernutrition, obesity and diet-related chronic diseases at the local and global levels. ATNI designs and delivers a range of private sector accountability tools, which strive to encourage 'healthy competition' within the food and beverage sector. By tapping into the competitive nature of the private sector, we aim to spark a race to the top in nutrition among global corporations.</p> <p>By assessing and ranking the world's largest food and beverage manufacturers' nutrition-related commitments, practices and disclosure globally, ATNI aims to encourage these companies to deliver on the SDGs, particularly SDG 2 (Zero hunger) and SDG 3 (Good health) and, more specifically, to:</p> <ul style="list-style-type: none">• Increase consumer access to nutritious and affordable foods and beverages through action related to product formulation, pricing and distribution; and• Responsibly exercise their influence on consumer choice and behavior through action related to marketing, labeling and promoting healthy diets and active lifestyles.• in monitoring and/or engaging with the food and beverage industry on nutrition issues." Gerelateerd:

ATNI is currently funded by the Bill & Melinda Gates Foundation, the Dutch Ministry of Foreign Affairs, the UK Foreign, Commonwealth and Development Office, Irish Aid, ShareAction, and the Robert Wood Johnson Foundation. Further information about ATNI's funders can be found [here](#).

Leden/deelnemers:

ATNI considers institutional investors to be among its most important stakeholders. Investors can demonstrate their support for ATNI by signing up to the [Investor Expectations on Nutrition, Diets and Health](#). Signatories to the Investor Expectations will have access to the investor portal – a password-protected nutrition and finance resource hub. More information about ATNI's work with investors and the full list of Investor Signatories can be found [here](#).

Wat doen pensioenfondsen? (1/2)

Pensioenfondsen Werk en (re)Integratie (PWRI):

- “Verder hebben we gesproken met ondernemingen in de voedingsindustrie over voedingsstrategieën. Het Britse voorstel om suiker te belasten, wijst op potentiële toekomstige regelgevingsrisico's voor ondernemingen waarvan de activiteiten sterk gebaseerd zijn op voedsel waar veel suiker in zit. Ons engagement richtte zich mede op ondernemingen die in de Access to Nutrition Index 2016 zijn opgenomen, waarbij we ons afvroegen hoe zij omgaan met de gesignaleerde tekortkomingen in de ondernemingsstrategie.” [\[Bron\]](#)

Wat doen pensioenfondsen? (2/2)

BPL Pensioen:

- “De publicatie van de Access to Nutrition Index’ (ATNI) – Global Index 2016 gaf ons de mogelijkheid de belangrijkste materiële ESG-risico's gerelateerd aan de productie van levensmiddelen en dranken te benadrukken. Het onderzoek door Société Générale dat daarop volgde, identificeerde de scores voor het risicoprofiel en risicobeheer van acht grote ondernemingen uit de voedingsmiddelen- en drankensector: Danone, General Mills, Kellogg's, Nestlé, Pepsi-Co, The Coca-Cola Company en Unilever en Kraft-Heinz. Behalve bovengenoemd onderzoek heeft dit Engagement onderzoek ook gebruikgemaakt van de ATNI als referentiepunt om de strategie voor voedingsmiddelen van de ondernemingen die zijn onderzocht te vergelijken.” [\[Bron\]](#)
